

# 10個の質問

質問/回答

1. 犬が涼しいと感じる理由は何ですか？
2. 涼しい素材はありますか？
3. 犬が好む色は何色ですか？
4. 涼しい効果はどれくらい続きますか？
5. 犬が好む匂いは何ですか？
6. 涼しい効果はどれくらい続きますか？10分以内ですか？それ以上ですか？
7. その他

# High-tech cooling fiber

- 🐾 Taiwan imported Micax high-tech cooling fiber, 3-4 degrees cooler by instantly contact.
- 🐾 Fine air holes, breathable, dry and light
- 🐾 Soft and comfortable

## SGS Report

**SGS**

**Test Report**

No. SL518052158528TX

Date: Apr 03, 2018

### 检验结果

#### 凉感测试

(Q-max, 测试仪器 KES-F7(THERMO LABO))

测试程序:

加热板(加热板温度比测试样温度高 $\Delta T$ )放在测试样表面(模拟织物接触人体皮肤), 热传递的峰值即为 Q-max

测试条件:

温度:  $20 \pm 2^\circ\text{C}$

相对湿度:  $65\% \pm 4\% \text{RH}$

温差:  $20^\circ\text{C}$

背面	1	2	3	4	5	平均值
W/cm <sup>2</sup>	0.367	0.361	0.369	0.367	0.364	0.366

It is generally believed that polyester textiles q-max ( $> 0.17$ ) have better cooling effect. The higher the Q-max value (heat flow), the better the cooling feeling.

### To use as cooling towe

put it into the water, wring out the excess water, and put it in the freezer for 10mins,then put on your dog's body , instantly ice cool for your dog.

Machine washable
