

DOG SNUFFLE MAT

Feature/Function:

Pet Snuffle Mat

1.[Inner] The inner side is mainly made of polar fleece. The polar fleece is soft and plush enough not to hurt dogs' teeth and it's chewable for longer time chewing.

2.The ball contains a bb call, which can attract the attention of dogs.

Round Velcro fixed, one ball dual use, you can smell, but also interactive.

3.The mat is set with anti-slip bottom. It grabs the ground firm enough not to move easily.

4. The mat is rich in food hiding places with such a large area. It offers different levels of snuffle training to dogs. Dogs search for "treasure" with their nose. It meets the requirements of dog's daily snuffle training.

5. Snuffle mat is the main areas of hiding food. We can put some dog food separately. It can also act as a slow feeding bowl, which can help form good habit of slow eating and is good for their digestion.

6.[Brim] The mat is set with exquisite brim. It's firm and durable. It can also prevent some accidental scratching hurt.

7.[Effects] 10 minutes snuffle training makes equal effects to running for an hour outdoors. It means that we can walk the dog indoors with such a snuffle mat. We can put some dog food inside to attract them to get energetic to some snuffle training.

They release their extra energy on the snuffle training on the mat instead of furniture.
