

Cooling Touch Pet Mat

Product Features / Features:

1. Reversible cooling touch pet mat
2. Taiwan imported high-tech cooling nylon fiber, 3-4 degrees cooler by instantly contact. fine air holes , breathable , dry and light
3. The mat fabric is made of cotton cloth, soft and skin-friendly material for pet comfort experience.
4. Ideal cooling blanket , cooling towel or cooling mat for pets in summer
5. to use as cooling mat or cooling blanket on the floor, on the pet bed, on the sofa , in the car ,etc
6. To use as cooling towel, put it into the water, wring out the excess water, and put it in the freezer for 10mins, then put on your dog's body , instantly ice cool for your dog.
7. Machine washable

High-tech cooling fiber

- 🐾 Taiwan imported Micax high-tech cooling fiber, 3-4 degrees cooler by instantly contact. 🐾 Fine air holes, breathable, dry and light fiber. 🐾 Soft and comfortable

检验结果

凉感测试

(Q-max, 测试仪器 KES-F7(THERMO LABO))

测试程序:

加热板(加热板温度比测试样温度高 ΔT)放在测试样表面(模拟织物接触人体皮肤), 热传递的峰值即为 Q-max

测试条件:

温度: $20 \pm 2^\circ\text{C}$

相对湿度: $65\% \pm 4\% \text{RH}$

温差: 20°C

背面	1	2	3	4	5	平均值
W/cm ²	0.367	0.361	0.369	0.367	0.364	0.366

It is generally believed that polyester textiles q-max (> 0.17) have better cooling effect. The higher the Q-max value (heat flow), the better the cooling feeling.

To use as cooling towe

put it into the water, wring out the excess water, and put it in the freezer for 10mins, then put on your dog's body, instantly ice cool for your dog.
