

Dog cool vest summer breathable pet heatstroke prevention cooling clothes method fighting cool clothes

Product Features/Characteristics:

Pet Heatstroke Cooling Vest

1. The surface layer is a heat-resistant two-color mesh, which has good ventilation and can reduce the heat from the outside;
2. Filled with simple cotton, the stored water can provide a constant source of coolness through the principle of evaporation and heat absorption;
3. The part close to the pet is a cool fabric for heat resistance and cooling. The cool fabric adjusts the temperature by absorbing heat, and the cool factor brings a cool and comfortable feeling to the pet. (The fabric does not contain chemicals, polymer materials, glues, crystals or phase change materials. The fibers used are all safe and non-irritating fibers. Compared with ordinary moisture-proof fabrics, this fabric is light, breathable and comfortable to wear.)
4. The shoulder and back reflective strip design, it is safer to walk the dog in rainy weather and dark night;
5. The invisible buckle makes this vest more concise and beautiful, and the design of the Japanese word buckle and the tightness of the abdomen is easy to adjust;
6. Sizes L-3XL are all equipped with an elastic tail design. Big dogs can use the elastic to buckle the tail, and the clothes are more close-fitting;
7. The back is open, and the traction buckle can be buckled directly when wearing the chest harness;
8. Doglemi embroidery, brand logo, low-key and beautiful;
9. A must-have item for pets to go out for walks, sports, and mountain climbing in summer.

UV Protection
